For Orders

Police Inspr. General's
No. 629 of 18th June '79

The Dy. solicits Early orders on his no 2725/558 of 19 March last praying an increase to the Nayne Town Police.

The increase recommended consists of 59 Constables (including a Drill Sergeant) at a cost of Rs 5508 per annum (ie 459 per mensem).

The increase is absolutely necessary, & the Nayne Police is not, in my opinion, excessive.

The cost will be greater than the amount above mentioned as Clothing &c have not been provided for in the Estimate.

Invited to prepare a Proforma Statement on the prescribed form containing the requirements of the Nayne City in accordance with the Police

Sanctioned.

To,

The Chief Secretary to the
Government of Mysore.

Sir,

I have the honor to submit an original (to be Kindly returned when disposed of) Mysore Deputy Commissioners letter No: 2830, dated the 10th Instant, together with its enclosures containing proposals for an addition to the Police of the Mysore Town - It will be seen that the question has for some time past, been pressing for Solution - The extension of the boundaries of the Town and its increase in size and importance are well known facts - The strength of the Town Police was fixed many years ago according to the requirements then existing and it has remained Stationary while the duties devolving on the Police have expanded year after year.

When? - What was the area & pop^n then & what now -

2. The Superintendent of Police and the Deputy Commissioner Mysore

District

District who have carefully studied the question in all its bearings bring to notice the inadequacy of the present establishment to cope with the work - The beats and routine patrol alone occupy a considerable portion of the time of the Constabulary whose number is insufficient for the efficient discharge of even those duties and as observed by the late Superintendent of Police double duty has become not a matter of punishment but ordinary routine - Beat and patrol are not however, the only duties devolving upon the Mysore Town Police - Extraordinary occasions such as the Dassarah festivities are of frequent occurrence when the resources in men, hard worked always, have to be strained to the very utmost. Men working under such conditions cannot be expected to discharge their duties efficiently; nor work turned out under such odds satisfactory -

Patent

There are numerous festivals throughout the year - about four, but during these seven months.

3. The Superintendent of Police states his requirements to be 94 additional men with a necessary complement of Officers - This Standard is too high - As suggested by the Deputy Commissioner I have considerably reduced the proposed establishment -

I beg to invite attention to
pended GOVERNMENT NOTE to the Deputy Com-
missioner's Communication, 152, for the
different beats seem to be required and the
number is not susceptible of reduction
without the risk of impairing efficiency.
The men required for keeping order at the
Chowks I have reduced to 20 and they may
be distributed according to the importance
of the Chowks and the traffic on them.
The number of sentries at each of the Head
Stations I have cut down to 3 making
a Total of 18 for the 6 head Stations. Two
Sentries are required for each of the Sub-
Stations. 6 men are required for detective
duties. Undoubtedly as many as may be
needed for this purpose will have to be
utilized as occasion may demand.
But the advantage of having a few men to
be trained specially in detective duties
is clear in the case of all large towns.
The number of orderlies has been fixed at
the existing figure and though it would
be desirable to reduce it, I do not propose
doing it on the present occasion having
regard to what may be termed vested
interests of convenience. For a large
Town like Mysore with a Police Force as
now proposed of about 230 men, it is reasonable
that a Reserve Force of 12 men should be

always kept ready for being employed on any emergency not only incidental to the detection and prevention of crime but likewise arising in connection with the Durbars and other festivities, Visits of distinguished passengers and so forth.

4. One Chief Constable on Rupees 25 for detective duties, two Head Constables on Rupees 20 each for the two important stations of Veerangeré and Mullappah and one first class Sergeant on Rupees 14 for drilling the men are not by any means too many Officers for the additional men proposed. I have the honor to request that you will be so good as to lay these proposals before the Dewan and obtain his orders. — The addition proposed may appear at first sight rather large, but it has to be remembered that the Strength of the Police establishment has not been revised from time to time in accordance with the growing demands of the exigencies of the Service. Now that the question is before Government, it may be settled once for all. The present and proposed Scale of the Strength together with the Cost of the addition now applied for are detailed in the annexed Statement.

5. I beg to take this opportunity of reminding Government about my former

Letter No 692 / 1889 dated 27th Feb 1889 in the Secretariat of Police was submitted to the Secretariat on 3-8-89.

former Communications on the Subject of the Municipal Police in the Province. Either the Municipalities should be relieved altogether of the Police charges or the powers of the Municipal bodies and the heads of the Police Department should be more clearly defined. There are serious practical inconveniences under the present system. The Municipalities cannot, it appears, afford, and do not as a fact provide sufficient funds for equipment and clothing. They often fail to repair Police Stations. Accommodation for Police men is necessarily out of the question. —

They must as long as the Municipalities are shall the Police Officers make arrangements for the Police Force. But this latter question is pressing for orders. Should proceedings be observed.
